Got MUD?

For more than 20 years our residuals management business has been built around the Houston area's unique municipal utility district (MUD) system, and it continues to be one of the core markets we serve. Call us today to schedule a site visit with one of our experts to see how Sprint Waste can save you money.

Don't Waste Your Time Getting the Runaround

From drivers to managers, our team of professionals has decades of experience in this specialized field. With successful completion of projects ranging from \$1,000 to more than \$10 million, no job is too big or too small. When you need a tailored solution, a Sprint Waste representative will meet you at your facility to develop a customized plan to meet the specific needs of your plant.
