

Let Sprint Augment Your Environmental Staff With Our Experienced and Trained Professionals

As a part of Sprint's Onsite ServicesSM, Sprint can scale and staff an onsite project team to meet your individual facility needs. This staffing may range in size from 1-2 technicians to a full project team, including project lead, technicians, full-time drivers, admin, etc.

Managed Waste Services

Let Sprint help you manage your onsite waste streams

Sprint Has Been Providing Onsite Solid Waste Management Services To The Industry For Over 15 Years

Sprint Waste is currently the in-plant solid waste managed service provider at one of the largest refineries in North America and has been since 1995.

Sprint's scale and footprint within the Gulf Coast allows it to leverage its large pool of technical expertise and sizable equipment resources, in order to provide Customers the best value in managing their onsite solid waste needs.

Deep Industry Experience You Can Count On

Innovative, Customer Driven Solutions

We listen to our customers at Sprint. This type of open communication between Sprint and our Customer drives us to seek out the best combination of organic services and outside partnerships to provide the best solid waste management solutions.
